Türksat 42° Ost - Frequenzliste 2026

Weitere Transponder: TR, Doğu, Afrika und Ka-West | vollständige Transponderübersicht

Empfangshinweis für Deutschland

Bati (West) ist in Deutschland meist am zuverlässigsten. TR und Doğu können eine größere, sehr genau ausgerichtete Antenne erfordern.

Afrika und Ka-West sind Spezialausleuchtungen. Die Empfangbarkeit hängt stark vom Standort und der Anlage ab.
